

GM Application/Filter Interchange Update

Filter recommendations have been updated for some applications using the 7060. To comply with the change, the previous 7060 will be replaced with the 100290 for select GM applications. The 7060 will remain an active part number and will still be offered for other non-select GM vehicles and applications.

7060

100290

Filter recommendations have been updated for some applications using the 7045. To comply with the change, the previous 7045 will be replaced with the 100255 for GM applications. The 7045 will remain an active part number and will still be offered for Chrysler vehicles and applications.

7045

100255

Refer to NAPA Electronic Catalog for updated filter fitment by application details.

As a reminder, it has always been, and remains our recommendation that the selection of a replacement filter be conducted using only the most current application information available. In today's cataloging, the electronic resources (i.e. Internet, interactive electronic) would be the most current application information available. For questions or more information, please contact your local NAPA District Sales Manager or call Product Information at: US 1.800.949.6698, Mexico +52(844)8661-21-50, Canada 1-800-567-3703.
