

TECH TALK

NAPA 7909

The NAPA 7909 has been redesigned and now has a new look and better performance. The new design features synthetic media which improves both filter efficiency and capacity. The new 7909 remains suitable for all previously cataloged applications.

Principle Applications: Detroit Diesel DD13, DD15, DD16 Engines
Refer to online catalog for complete application listing.

NAPA 7909 Updated Construction

As a reminder, it has always been, and remains our recommendation that the selection of a replacement filter be conducted using only the most current application information available. In today's cataloging, the electronic resources (i.e. Internet, interactive electronic) would be the most current application information available. For questions or more information, please contact your local NAPA District Sales Manager or call Product Information at: US 1.800.949.6698, Mexico +52(844)8661-21-50, Canada 1-800-567-3703.
