BULLETIN

NAPA Filters now offers keyless replacement filter elements for Stanadyne® Fuel Manager® FM100 fuel systems.

The new double seam design offers a more robust sealing gasket to prevent leaks. This new seal, along with the keyless feature, makes the installation experience easier and service life trouble free. All cataloging remains the same and great filter performance continues to ensure that your fuel systems are protected.

Catalog Numbers Include: 3531, 3532, 3547, 3548, 3668, 3533, 3738

Keyless Replacement Filter

As a reminder, it has always been, and remains our recommendation that the selection of a replacement filter be conducted using only the most current application information available. In today's cataloging, the electronic (i.e. internet, interactive electronic) would be the most current application information available. For questions or more information, please contact your local NAPA Filters District Manager or call Product Information at 1.800.949.6698
